Corporate Social Responsibility (CSR) activities – 2023-24

Enhancing the Infrastructural Development by supplying Laboratory Instruments & Hygienic Water Reservoir and Drinking Water System at Nripendra Narayan Memorial (N.N.M.) High School

Thermal Associate Pvt. Ltd. in commitment to its Corporate Social Responsibility (CSR) initiatives, recognizes the importance of education and health in shaping the future of young minds. Nripendra Narayan Memorial (N.N.M.) High School is one of the oldest educational institute located in a rural area at Tufanganj subdivision in Cooch Behar district. It has been facing challenges in providing students with practical science education and seeks to upgrade its laboratory with modern instruments. Additionally, the school is trying to actively address any issues related to safe and reliable drinking water system which may pose a health risk to the students and the community at large.

To overcome these shortcomings, Thermal Associate Pvt. Ltd. stood shoulder to shoulder to not only modernize the science laboratories in support of their educational development but also arranged the setting up of the hygienic water reservoir and drinking water system to look after the well-being of students. This gesture is expected to enhance their learning environment through the provision of essential laboratory equipment and a hygienic water supply system.

Supply of Laboratory Instruments:

Thermal Associate Pvt. Ltd. continued to pledge support for improving the quality of science education by equipping the school's laboratory with modern instruments namely Binocular Microscope, Digital Microscope, Digital White Board, Sphygmomanometer, Centrifuge Machine, PH Meter, Skin Anatomical Model, Vertebral Column Anatomical Model, Meter Bridge, Battery Eliminator, Transistor, Sonometer, Rheostat, Boyle's Law Apparatus, Laboratory Refrigerator, Test Tubes, Conical Flasks to name a few for physics, chemistry, and biology classes.

As conveyed by the school headmaster Mr. Ramkrishna Pramanik, the availability of these instruments within the school premises has enabled the students to conduct practical experiments, enhance their understanding of scientific concepts thereby fostering a hands-on learning environment.

Installation of a Hygienic Water Reservoir and Drinking Water System:

In line with our focus on ensuring access to clean & safe drinking water, promoting their health and well-being, Thermal Associate Pvt. Ltd installed a large-capacity hygienic water reservoir at the school, along with a drinking water systems that includes filtration units to ensure that the water is free from contaminants.

The installations of the water reservoir and the drinking system has provided the students with a reliable source of clean drinking water thereby reducing the risk of waterborne diseases and supporting the overall health of the school community.

This CSR project underscores the importance of corporate involvement in community development. The successful implementation of this CSR project has significantly improved the educational infrastructure at Nripendra Narayan Memorial High School. The students now have access to better learning resources and a safer environment, which has positively impacted their academic performance and overall well-being. The project reflects Thermal Associate Pvt. Ltd.'s commitment to contributing to the community by supporting education and promoting health.

By addressing key needs in education and health, Thermal Associate Pvt. Ltd. has not only enhanced the learning environment at Nripendra Narayan Memorial High School but also set a precedent for future CSR initiatives aimed at empowering communities and building a brighter future for the next generation.
